DROTECT YOUR BUILDINGS! Which may be done with one-fourth the usual GLINES' PATENT SLATE ROOFING PAINT.

AGRNTS WANTED IN EVERY TOWN.

ATTORNEY AT LAW,

A roof may be covered with a cheap shingle, and by application of this slate be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better, and lasting longer than new shingles without the slate, for ONE-THIRD THE COST OF RE-SHING-LING. The expense of slating new shingles is only about the cost of simply laying them. The Paint is FIRE-PROOF against sparks or flying embers, as appears from the fact that Insurance

Companies make nearly the SAME TARIFF AS FOR SLATED ROOFS. For tin and iron it has no equal, as it expands by heat, contracts by cold, and never cracks nor scales. For fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheathing Felt can be made water-tight at a small expense. The Slate EXTREMELY CHEAP! Two gallons will cover a hundred square feet of

shingle roof, or over four hundred of tin or iron. Price ready for use is 80 cents per gallon. NO TAR IS USED IN THIS COMPOSITION. It fills up all holes in Tin or Felt roofs, and stops the leaks, one coat being equal to five of ordinary paint. The color of the Slate when first applied is dark purple, changing in about a month to a light uniform slate color, and it is,
